About the Fund

The Bennelong Emerging Companies Fund provides exposure to small-cap and micro-cap securities listed on the ASX. It is a high conviction portfolio that typically holds 15-40 securities.

Compared to larger companies, emerging companies can offer more exciting growth prospects but can also present far greater investment risks. As these companies are often less well known and researched, we aim to be disciplined in focusing on higher quality and lower risk options that we believe have solid growth prospects.

Benefits of the Fund

- Offers investors exposure to micro and small cap companies, which are often less well known and researched compared to larger caps
- Utilises BAEP's research budget, proven research capabilities, and extensive network of industry contacts
- Leverages BAEP's historical success investing in emerging companies, including access to pre-IPO opportunities
- Managed in accordance with BAEP's robust, disciplined and proven investment philosophy and process
